

Control Flow Roller Frame

Product Specifications

Product Details

Product Name: Control Flow Roller Frame

Order Quantity: Each

Includes: Roller frame, handle, flat roller, one pair dispensing head

Description: The Control Flow Roller Frame allows use of a spray rig without risking overspray. Connect directly to your rig, pull the trigger, and start the application.

Product Benefits

- No atomization of material = no overspray
- Lower pump pressure required
- Lower pressure hose can be used
- Material can be purchased in bulk
- Material is pumped to the roller
- Streams flow directly from dispensing head onto roller

Product Sizes

Control Flow Roller Frame

4" Control Flow Roller Frame	CFRF-04
8" Control Flow Roller Frame	CFRF-08
16" Control Flow Roller Frame**	CFRF-16
24" Control Flow Roller Frame	CFRF-24

***When using a 14" profile roller on the Control Flow Frame, order the roller designated as a Control Flow Roller. The roller will include spacers to allow the 14" roller to fit on a 16" Control Flow Frame.*
