## ***An Adjustable Roofing Anchor and a “First-Man-Up/Last-Man-Down” System All In One.***

### **FEATURES**

- ◆ Etched pitch-grid allows user to customize 6/12 to 12/12 pitch selection
- ◆ Innovative arch straddles ridge vent when installing
- ◆ Exceeds industry standard of 5,000-pound tensile strength (when anchored)
- ◆ Integrated rope-and-harness connection capabilities
- ◆ Constructed from solid, aircraft-grade aluminum
- ◆ Four, pre-drilled holes for anchoring
- ◆ Adjustable, pitch-specific settings to maximize contact between The RIDGEPRO™ and the peak

### **BENEFITS**

- ◆ Connect to the peak before stepping onto a steep-slope roof
- ◆ Safely transition on and off ladders from 6/12 to 12/12 pitches
- ◆ Faster access to the peak than standard rope-and-harness techniques
- ◆ Lightweight alternative to bulky scaffolding or roof planks
- ◆ Versatility across many professional roofing applications
- ◆ Easy to assemble and install
