

New!

Streamline Quick Connect Base Unit

Features:

Lightweight: Only 3/4 pound per bracket

Thin: Only 1/2" depth to minimize overall width of ladder

Tapered at top to protect latch and prevent abrupt interferences

Installs on fiberglass extension, combination, platform and step ladders

Enables quick attachment of Levelok Levelers

Benefits: Fits most brands and styles of fiberglass ladders. Helps to maintain ladder's intended weight and width. Increases versatility while reducing injuries & costs. Extends life of levelers when kept inside van or truck, out of extreme weather. Approved for ladders up to a Type 1AA, 375 pound duty rating. Meets all ANSI and OSHA Standards for Ladders and Ladder Accessories. **Levelok Model: LL-QC-3**
